Career Objective

Aspiring Full Stack Developer with expertise in web technologies CSS, JavaScript, React, and Node.js. Eager to contribute innovative solutions and drive success in both front-end and back-end development. Committed to continuous learning and making meaningful contributions to cutting-edge projects in a collaborative tech environment.

Education

DIT University

Bachelor of Technology in Computer Science 7.6 CGPA - (**Expected Graduation: June / 24**)

Aug. 2020 – Present

Dehradun, UK

Experience

Freelance Web Developer

Self-employed

Dec 2023 –

- Implemented new features and optimized existing code in React and React Native applications.
- Collaborated closely with clients for requirements, updates, and feedback incorporation.
- Utilized version control systems such as Git to manage and track changes in the codebase.

Projects

E-commerce Backend Development | *Express.js, Node.js, MongoDB, Firebase*

January 2024

- Architected a robust backend with RESTful APIs, user authentication, and secure authorization processes.
- Designed optimized database schemas for efficient product, user, and transaction data management.
- Implemented end-to-end integration of external services and APIs, enhancing overall system functionality.

BlogSite Backend | *Express.js, Node.js, MongoDB*

November 2023

- Implemented user authentication with JWT tokens, ensuring secure login and signup functionality.
- Implemented a commenting system to enhance user engagement and interaction with the blog content.
- Ensured a scalable and maintainable architecture, allowing for future enhancements and updates.

Chat Application | *HTML5, CSS, React, JavaScript, Firebase*

January 2023

- Developed a multiuser chat application using HTML, CSS, React, and JavaScript.
- Implemented features enabling file sending, text-based chatting, and secure user authentication.
- Leveraged Firebase API for real-time database updates, ensuring a smooth and secure chat experience.

Static Landing Page | *HTML5, Tailwind CSS, React, JavaScript*

December 2022

- Created a static landing page using React, Tailwind CSS, HTML, and JavaScript.
- Designed components, including a responsive navbar and footer.
- Gained hands-on experience with front-end technologies.

Technical Skills

Languages: HTML/CSS, JavaScript, Node.js, Java, Spring, SQL

Technologies/Frameworks: Linux, Git, GitHub, FireBase, React, Spring boot, Bootstrap

Development Tools: VS Code, Eclipse, Azure, IntelliJ

Coding Profiles

CodeChef Leetcode

Certifications

- **Introduction to front end development** certification course by META Issued: Apr 2023
- **Introduction to back end development** certification course by META Issued: Apr 2023
- **Programming with javascript** certification course by META Issued: Nov 2022
- **Introduction to TCP/IP** certification course by Yonsei University Issued: Oct 2022
- **Introduction to Software Engineering** certification course by IBM Issued: Mar 2023
- **Cloud Computing basics** certification course by Learning Quest Issued: Jun 2022
